ORGANIZATION PERFECTED.

Board of School Trustees Hold First Meeting.—Will Investigate Cramped Condition of the Schools.

The board of school trustees elected at the city election on February 14th, held their first meeting early this week and elected J. H. Barnes as chairman and D. D. Rogers as secretary. The other members of the board is R. S. Maley.

The question of school accommodations was taken up and it was decided that something will have to be done about the cramped condition of the colored school between Midway and Waycross. In one of the rooms in this school

there are over 100 pupils and it has been found necessary to rent a room outside of the building. The attendance at the colored school this year is much larger than ever before and from reports the children are making satisfactory progress.

The board decided to make a visit to the white school building at an early date and make a general inspection. This school is also crowded and it is very likely that some important recommendations will be made.

Port Orange.

Mrs. Wm. Johnson has opened a store on the corner of Dunlawton Avenue and Lafayette Street, for the sale of articles made of palmetto.

Clarence Bennett, an oldtime Port Orange boy, was in town last week shaking hands with his former comrades.

R. L. Lufberry, who has been visiting his parents, returned home Tuesday of last week. Miss Ruth Brolm accompanied him to visit her sister, Mrs. Lufberry.

Mr. and Mrs. Seymour arrived in Port Orange last week, in their launch on their way up from Miami.

S. Forlow, of Beaufort, N. C., is visiting his uncle, Mr. Carrow.

Rev. Mr. Chrysler, Jr., and his bride

were here last week. Mr. Chrysler preached last Friday and Saturday.

The popular Port Orange House has a goodly number of guests, and more coming.

Mr. and Mrs. Douglas arrived from the south Monday.

Mrs. Gresham, of Jacksonville, is visiting her daughter, Mrs. R. F. Johnson. There is to be a bazaar in Ridgewood Hall, during the afternoon of March 15th, beginning at 2:30 o'clock, and in the evening there will be an entertainment, beginning at 7:30 o'clock. Admission, 15 cents. Refreshments will be served, after which there will be dancing.

Miss Agnes Geiger, who has been visiting Mrs. F. O. Sparkman for some time, returned to her home in Jacksonville Monday.

Mr. and Mrs. George L. Lufberry and Mrs. DuBois have gone to Jacksonville for a few days.

CLARENDON'S ANNUAL BALL.

The Management Scored a Great Success Wednesday Evening.—The Decorations Were Exquisite.

The dining room of The Clarendon Wednesday evening was the scene of the fifth annual ball. The occasion was one of the most enjoyable ever held in this hotel, and the management again scored a deserved success.

The spacious room was beautifully decorated with palms, lilies and ferns, and presented a scene of beauty. The decorations reflected great credit upon the persons to whom the task was entrusted. The management spared no expense on this feature, and the people in attendance were constantly admiring the exquisite scene.

Dancing commenced about 9 o'clock, and continued until 1:30 in the morning. The music, as furnished by The Clarendon and The Colonades orchestras, was up to its usual high standard.

The attendance numbered nearly 600, which was about evenly divided between hotel and townspeople. The Clarendon and The Colonades, which are now entertaining a large number of fashionable people, contributed largely to the quota of guests. The costumes worn by the ladies were as fine as have ever graced a ball room in Florida.

The refreshments, which were served in abundance, were elaborate, and were greatly enjoyed by the guests of the occasion.

Dr. E. L. Potter, the proprietor of The Clarendon, and his estimable wife, also the manager, C. H. Knappe, and

C. A. Creighton, assistant manager, are deserving of much praise, and received many congratulations upon the success of the affair.

Military Euchre.

Mrs. W. H. Heath, of Holly Hill, gave a military euchre party, Tuesday afternoon, in honor of Mr. Heath's sister, Mrs. J. M. Dillon, of London, Canada.

There were four forts, or tables, each garrisoned by six fair amazons, and the battles were fast and furious for two hours or more.

The prizes were awarded in an original manner. The six articles were numbered from one to six inclusive. Cards were dealt to the successful players and the first cards corresponding to the numbers upon the prizes decided their ownership.

The novel refreshments, consisting of "trifle," jelly, cakes and fruit punch, were greatly enjoyed by the guests.

The prize were won by the following ladies: Mesdames L. B. C. Davenport, H. F. Stewart, Charles Gardiner, A. H. Carter and the Misses Celia Doerner and Cecilia A. Harris.

Mr. and Mrs. J. S. Daugherty and their pleasant daughter have accommodations at Schmidt's Villa, where they expect to remain for some time. They are greatly pleased with Daytona, and the place where they are located.

ACCEPTANCE

NOT YET HERE.

Local Militia Still Without a Regular Captain.—Target Will be Built on The Beach For Practice.

Captain Charles L. Smith, of the Halifax Rifles, has not yet received the acceptance of his resignation from Tallahassee, and until he does a new captain of the local militia will not be elected. It is very probable that during the next few days, he will receive notice of his retirement.

The name of Lieutenant J. D. C. Morris has been prominently mentioned in connection with the captaincy, and it is very likely that he will receive the unanimous vote of the company. The career of Lieutenant Morris, as a soldier and in business, is a brilliant one and his friends feel confident that he will look after the company with fitting dignity.

SOME GOOD SHOTS.

In the ranks of the company are some good shots, and the boys will commence an early date to get in trim for the national contest. A long range target will be constructed on the beach and those who are interested will endeavor to qualify. Among the best shots are Messrs. Rich, Schmidt and Melton.

AN INDIANA

RE-UNION.

A Pleasant Reunion of Indiana People Who are Visiting Here Was Held Wednesday at Daytona Beach

A reunion of the tourists of Daytona and Daytona Beach representing the State of Indiana, was held Wednesday, March 7th. Dinner was served in Harroun's Cafe. Sixty-five representatives were present and a royal good time was had in the interchange of home news, social talk and getting acquainted. Dinner was a fine display of culinary art. It was served in the style by the ladies of the party. Mr. Ben Booth had charge of the affair as master of ceremonies and everything went off in fine style. The after dinner talk was bright, sparkling and entertaining. After a couple of hours spent in social intercourse, the party grouped for photos.

Before separating the master of ceremony called everybody to order and extended a vote of thanks to Mr. and Mrs. Harroun for the use of their room in which to serve dinner. The party then adjourned with the mutual wish of all to meet again next winter. The following is the roster of those present:

Bazaar and Supper.

The Ladies Aid Society, of the Methodist Church at Daytona Beach, will give a bazaar this afternoon at Harroun's restaurant and this evening a supper will be given at the same place. Many articles of value have been made which will be on sale. For the supper a tempting menu has been prepared.

A pleasant trio of Georgia ladies who are spending a few days at The Clarendon, are Mrs. Jos. S. Boynton, Atlanta, Miss Maude Jones, of Griffin, Mrs. Sarah Moss, of Athens.

The guests of the New Seaside Inn, on Tuesday evening, indulged in a euchre party, that was one of the most pleasant occasions held at this hotel during the season. There were nine tables, and prizes were awarded to the most proficient players.

YACHT ROWENA

IS COMING.

Could Not Pass Under Obstructions on the Mississippi River, So Will Return via Atlantic Coast.

The handsome steamer Rowena, which was in port several weeks during January, is expected here during the next few days en route North. The yacht, during its stay here, was greatly admired, and the party on board were delighted with Daytona.

The Miami Record, in speaking of the yacht, has the following, which will be of interest:

"The handsome steam pleasure yacht Rowena owned by D. P. McQueen, of Saratoga, returned to Miami from Key West a few days ago, and today left for Palm Beach for a stay of some length. The Rowena was here earlier in the season, but left on a cruise to Cuba and it was the intention of the owner to return home via the Mississippi and great lakes, but an investigation showed that the boat was of too high a build to pass under some of the obstructions which would be encountered on the route.

"Mr. McQueen is accompanied by his wife and daughter, and has as guests George W. Mackett and Mrs. George Walker, of Schenectady, N. Y. They report an ideal trip to Cuba, and after spending a few days at West Palm Beach will begin their northern journey along the Atlantic coast."

No Ball Game.

H. W. Courtenay, manager of the Daytona baseball team, is in receipt of a letter from the Stetson team stating that they will be unable to play here on March 16th. They are desirous, however, of securing a game with Daytona on April 26th and 27th. This will give the local boys a good chance to get in trim.

Among the late arrivals at Schmidt's Villa are: Mr. and Mrs. J. S. Daugherty, Miss Daugherty, Wabash, Ind.; J. R. Turner, DeLand; Mr. and Mrs. H. E. Staples, Detroit; Mrs. Buderick, St. Paul, Minn.; John Bayer, New York; J. D. Craighead, Hartford, Conn.; Dr. Edward Cooke, T. F. Cooke, Cambridge, Mass.; J. L. Stover, Atlanta.

A Poem for Today

I SAW TWO CLOUDS AT MORNING

By John Gardiner Calkins Brainard

SAW two clouds at morning,
Tinged by the rising sun,
And in the dawn they floated on
And mingled into one;
I thought that morning cloud was blest,
It moved so sweetly to the west.

I saw two summer currents
Flow smoothly to their meeting
And join their course with silent force,
In peace each other greeting:
Calm was their course through banks of green,
While dimpling eddies played between.

Such be your gentle motion,
Till life's last pulse shall beat;
Like summer's beam and summer's stream,
Float on in joy to meet
A calmer sea, where storms shall cease,
A purer sky, where all is peace.

A Poem for Today

THE SHEPHERDESS

By Alice Maynell

ALICE THOMPSON was born in London, educated in that city and passed much of her childhood in Italy. In 1871 she became the wife of Mr. William Maynell, editor of *Merry England*. She has written, besides several volumes of verse, two or three books of essays: "The Color of Life," "The Rhythm of Life" and "The Children."

HE walks—the lady of my delight—
A shepherdess of sheep.
Her flocks are thoughts. She keeps them white;
She guards them from the sleep.
She feeds them on the fragrant height
And folds them in for sleep.

She roams maternal hills and bright,
Dark valleys safe and deep.
Into her tender breast at night
The choicest stars may peep.
She waits—the lady of my delight—
A shepherdess of sheep.

A Flea For Soup.
A learned doctor, pleading for soup on every dinner table, says: "A person comes to dinner weary and hungry and needs first something to stimulate the secretions of the stomach. The first course, hot soup, does this by its action upon the nerves which control the blood vessels. Taking the soup slowly is an aid to digestion, and if not a favorite dish fish or oysters can be substituted, serving the same purpose. The joint or roast can then be taken with benefit to the system, and the game, vegetables and sweets should follow in their order, not necessarily in courses for the plain family dinner, however."

Mileage of the Blood.
The mileage of the blood circulation reveals some astounding facts in our personal history. Thus it has been calculated that, assuming the heart to beat 60 times a minute at ordinary heart pressure, the blood goes at the rate of 207 yards in the minute, or seven miles per hour, 108 miles per day and 6,320 miles per year. If a man of eighty-four years of age could have one single blood corpuscle floating in his blood all his life it would have traveled in that same time 5,150,808 miles.

Consideration.

Art by the Ton.
An American city once asked MacMonnies, the sculptor, to enter a design for army and navy groups for a soldiers' and sailors' monument. He declined to compete. Then the commission was tendered to him outright. He submitted sketches of his idea for the groups. The committee in charge of the monument wrote him, asking, "How many tons of granite do you intend to use in the base?" His reply was: "If you are in the business of buying granite you may use as much as you want, one ton or 100,000 tons. I am an artist, and I never yet heard of art being bought by the pound." The question was dropped until the contract for the commission was drawn. When Mr. MacMonnies received it he discovered in it a clause providing that in case the bronzes were ever thrown down from their base, by any cause whatever, and any person or property should be injured, he and his heirs forever should be liable for the damage sustained. He returned the contract without comment, unsigned. When the committee wrote him, asking the reason, his brief reply was, "Your lawyers are too sharp."—World's Work.

The Ruling Passion Strong in Death.
The ruling passion of Edward I. of England was undoubtedly the pursuit of his ideal of uniting the British islands under one rule. His great obstacle was Scotland, and the conquest of Scotland, therefore, became a passion with him. Stronger than years, it sent him to the head of the army when he was fit only for a sick bed, and when he was at last compelled to yield he sought to make this passion spur on his son by ordering that the flesh should be boiled from his bones and that his skeleton should be carried at the head of the army and remain unburied till Scotland was conquered.

This is the most conspicuous instance of "the ruling passion strong in death" on record, though many others would be worthy of quotation. William Pitt's patient endurance to his last gasp and inspired his last utterance, as did Nelson's lifelong determination to secure the command of the sea, while Napoleon's last dream was one of battle.

Pasant and Pize.
A clever smuggling trick has been played on a customs officer on the Russo-German frontier. An innocent looking peasant reported to the officer a plot for getting a large number of pigs across the frontier. The method, he said, would be to drive across at intervals of half an hour, 3, 6, 12 and 20 pigs, the smugglers arguing that if the first three lots could be sent over there would be no trouble with the 200.

The officer was naturally on the alert in accordance with the peasant's statement these pigs were driven over, then six, followed by twelve. All were allowed to pass, and preparations were made to receive the 200. But no more pigs appeared, and the twenty-one animals admitted had in the meantime been lodged in safety.—Berlin Cor London Mail.

The Congressional Library.
In its fine building the library of congress should be safe against destruction for many centuries. Fire has cost the world many of its greatest collections. It ruined the ancient Alexandrian library of the Ptolemies when the Christians sacked the temple of Serapis in the year 275. It cost the world thousands of ancient manuscripts when the Crusaders captured the city. Twice the library of congress has suffered by fire—first at the destruction of the capitol by the British in 1814 and again in 1851. In its present housing it is protected by every possible safeguard and directed in its development by the most expert of custodians. And with a sense of pride in which all Americans must share the nation has given to its foremost sculptors and artists the opportunity to enrich its walls with their works. It is a monument to American thought and learning, which must grow in value and significance with each year.—New York World.

Canal Work.

Very satisfactory progress was made on the Coast Line Canal and Transportation Company during the month of January. Both of the dredge boats were working constantly during the month and the management is greatly encouraged over the fact that the canal will be completed before many months.

REVISAL WELL ATTENDED.

This Evening Rev. J. E. Mikkler Will Preach at First M. E. Church.—Good Sermons Preached.

The revival, which is in progress this week at the First Methodist Church, has been largely attended, with the exception of last evening, owing to the inclement weather.

Several good sermons have been preached during the week, and the interest is such that much good will be derived from the revival.

Rev. Adamson, of Daytona Beach, preached a very interesting sermon on Tuesday, that was listened to with much attention. This evening Rev. J. E. Mikkler will preach, and Mrs. C. L. Brown will sing. If the weather is favorable the attendance will be increased.

Next Sunday Evangelist P. W. Radford, of New York City, will assist in the services.

Southern Prosperity.

Figures on the industrial development of the South, which have been used to show its wonderful growth in the last two decades. The best indication of this growth is found in its coal production. In 1902 the tonnage of the South—that is, the number of tons shipped out—was only 2,000,000, or about 27.5% of the total of the country. The share of the South was then less than one-eighth.

In 1903 the tonnage of the South was 21,500,000, while that of the rest of the country was 152,000,000, so that the share of the South had increased from one-eighth to one-seventh. While the tonnage of the rest of the country had increased four fold that of the South had increased ten fold.

It is to this wonderful record that a good many people point in arguing against Government control of railroad rates. As one of the most prominent men in the South recently said: "It is absurd and foolish to sit well enough alone when prosperity follows in the wake of such a record." Up to the present the national loss from Government control, and property has come to the South at an astonishing rate. She is fast overtaking the rest of the country, and many Southerners expect to surpass it in a few years. If such a political body should become the center of national control, so many lives, the South would suffer. For this reason the plan for a partial review of the rate of the commission is feared by good men. It is to be hoped that the South will be far from danger as possible.

 as mentioned in Wednesday's issue.

Work is progressing satisfactorily on
 the new boat now being built by Mc-

The finishing touches are being made
 to the bus Columbia, which McCoy

 the machine is red and will no doubt be
 very conspicuous. The owners are
 awaiting the arrival of the wheels and
 as soon as they arrive the machine will
 be put in commission.

Revival Well
 ATTENDED.

This Evening Rev. J. E. Mickler Will
 Preach at First M. E. Church.—
 Good Sermons Preached.

The revival, which is in progress this
 week at the First Methodist Church, has
 been largely attended, with the excep-
 tion of last evening, owing to the in-
 clement weather.

Several good sermons have been
 preached during the week, and the in-
 terested ones think that much good will
 be derived from the revival.

Rev. Adlyman Smith, of Daytona
 Beach, preached a very interesting ser-
 mon on Tuesday, that was listened to
 with much attention. This evening
 Rev. J. E. Mickler will preach, and Mrs.
 C. L. Riemann will sing. If the weather
 is favorable the attendance will proba-
 bly be large.

Next Sunday Evangelist P. W. Rad-
 cliff, of New York City, will assist in the
 services.

Southern Prosperity.

Figures on the industrial develop-
 ment of the South, which have just been
 issued show its wonderful growth in the
 last two decades. The best indication
 of this growth is found in its railway
 ton mileage. In 1882 the ton mileage of
 the South—that is, the number of tons
 shipped one mile—was only 2,016,000,
 against 37,255,000,000 in the rest of the
 country. The share of the South was
 then less than one eighteenth.

In 1904 the ton mileage of the South
 was 21,500,000,000, while that of the
 rest of the country was 152,022,000,000,
 so that the share of the South had in-
 creased from one-eighteenth to one-
 seventeenth. While the ton mileage of
 the rest of the country had increased
 four fold that of the South had in-
 creased ten fold.

It is to this wonderful record that a
 good many people point in arguing
 against Government control of railroad
 rates. As one of the most prominent
 men in the South recently said: "It is
 always a good thing to let well enough
 alone, when prosperity follows in the
 wake of such a course." Up to the
 present the railroads have been free
 from Government control, and prosper-
 ity has come to the South at an aston-
 ishing rate. She is fast overtaking the
 rest of the country, and many South-
 erners feel suspicious of a measure like
 the Hepburn bill, which would change
 all this by giving a commission in Wash-
 ington control of the traffic of the whole
 country. If such a political body should
 become the center of sectional conflict,
 as many fear, the South would suffer.
 For this reason the plan for a judicial
 review of the acts of the commission is
 favored by those who want to keep as
 far from danger as possible.

DAYTONA AND ITS ATTRACTIONS.

DAYTONA is situated upon the west bank of the Halifax River at its farthest extreme and midway between its source at Bulow Bay and its outlet at Mosquito Inlet. It is in latitude 29, seventy-four miles from St. Augustine and one mile from the Atlantic Ocean, and is acknowledged to be without a rival for beauty among the villages of the South. Its site is upon what is known as high hammock land that was crowned by nature with a most royal growth of majestic forest trees, and among these trees is the town of today, with its beautiful cottages and well-graded walks and streets. The result is that all along the wide avenues that intersect the town are lovely live and water oaks and hickories, many of them draped with graceful festoons of the gray Spanish moss, that overarch the street and walks, and among these are interwoven tall tropical palmettos, glossy-leaved magnolias, fragrant bay and coral-berried holly, and many other varieties, while in many places the wild grape, the trumpet vine and the ampelepos climb and cling among the branches forming shady bowers and adding grace and beauty.

The town lies parallel with the Halifax River, and extends for nearly two miles along the shore. This river is the delight of the angler and the yachtsman and forms one of the town's greatest attractions. The main avenues that run parallel with or intersect the river are all 100 feet wide, except Beach street, which is about sixty-five feet, but has a half-mile of open, beautiful water abutting upon its eastern side, where the salt waves ebb and flow and along and across which comes the cooling, invigorating and health-giving breezes from off the wide Atlantic, which temper and render the Halifax climate one of the most perfect in the world. Daytona has many miles of well-graded, macled and shelled roads and streets, rendering it the

Wheelman's Paradise
and added to these, but a mile away, are thirty miles of smooth, hard beach, that affords an unrivaled course for long-distance cycling and driving of automobile racing. No town of equal size, North or South, numbers so many wheelmen, and cycling is a favorite pastime with the tourists summer and winter.

The Beautiful Cottages
that have been erected during the past years and are being built are rendering Daytona as famous for its fine houses as for its beautiful river, trees and avenues, and they are adding yearly to its attractions. Not the least of these attractions to those securing homes in the South, and ranking second only to healthfulness and perfection of climate, is the fact that its population is chiefly composed of cultivated and intelligent people, accustomed to the refinements of home and social life. Added to these features are good churches, good public and private schools, stores, hotels, laundry, meat markets, novelty works, an opera house, electric lights for street and house illumination, a good telephone system, ice factory, Lily Water Works, and hot and cold baths, etc., and everything else can be procured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

Water Supply
which is derived from numerous flowing wells, of which there are probably 300 in the corporate limits. This flow is secured by boring wells to the depth of from 80 to 120 feet, passing through several strata of rock, and this depth assures purity from all surface contamination. The water is slightly impregnated with magnesia

and iron, and holds sulphur in the shape of gas, which soon passes away.

The Population of Daytona
proper is about 1,800. Added to this is a suburban population on main shore and peninsula of about 1,000 at Kingston, Blake, Old Seabreeze or Goodall, Seabreeze and Silver Beach, which are properly a part of the town and population.

Daytona Beach
lies one mile east of the town. It is approached by three good bridges over the river and well-graded avenues, and is the principal summer resort south of St. Augustine. It has more tourists during the summer than all other places south of that city combined, and is also becoming a favorite winter resort. The beach is wide, firm and smooth, by many considered the finest in the world, and the surf bathing is safe and excellent summer and winter. People who have tried to declare that there are none so perfect comfort as Daytona beach.

Automobile Race Meet.
The Florida East Coast Automobile Association conducts an annual race meet on the beach, which has now a universal reputation as the greatest automobile race course in the world. The Daytona-Ormond Beach is hard as uncut diamond, and an ideal stretch of thirty or more miles without a break makes it the natural racing ground for America.

At low tide the beach is bare for 300 feet and neither carriage wheel, bicycle or pedestrian can make a hardly visible imprint on the smooth and well-packed sand. It is no uncommon sight to see sail-rigged bicycles speeding with the velocity of the wind before a stiff breeze along the beach, and an ideal stretch of thirty or more miles without a break makes it the natural racing ground for America.

The beach from the sandy bluffs to the lowest point at ebbside, measures about 500 feet, and the average depth of the surf measures about two feet. A continuous gentle swell rolls in from the ocean from one to two feet in depth under normal conditions, making the beach an attractive and absolutely safe place for surf-bathing. Here the infant as well as the grey-haired veteran of many summers, can safely enjoy the luxury of a sea bath throughout the larger part of the year, while the strong and expert swimmer, can venture out, further to test his strength and skill in battling with the inexhaustible powers of the mighty ocean.

Beach Features
Lying between river and ocean is one half mile wide, and is being rapidly improved, and there are many fine cottages and several good hotels, an opera house, two ocean piers, beach pavilion and a large casino.

A Remarkable Feature
at Daytona has been the yearly improvement in the style and value of the buildings that are being erected for homes. Men of capital of the North and West have become awakened to its advantages for winter residences, and valuable lots are being purchased and costly houses, beautiful in design and finish, are being erected, and beautiful homes are multiplying. Seabreeze (City Beautiful) and Goodall are settlements on the Ocean side of the peninsula across the Halifax River from Daytona. At the foot of Ocean Boulevard, Seabreeze, a pier reaches 600 feet across the beach into the swelling surf of the ocean. This pier is a favorite resort of those who delight in the sport of fishing. The surf here abounds in trout, pompano, yellow perch, whiting, drum, sheepshead and many other varieties of edible fish. During the fall season the famous sea bass affords royal sport, and it has been no uncommon occurrence to land a thousand pounds of this gamey fish in an afternoon, individuals of them ranging from fifteen to thirty pounds in weight. Not only does the ocean offer this splendid sport but the Halifax River, only half a mile back of the ocean, is equally famous for its fine fishing, and the varieties that abound in the ocean are present in the river. Fishing and fishing good. Experienced guides and dogs may be had at reasonable prices.
